

AQBase< dim >

```
graph BT; LSGC[LSGC< dim >] --> AQBase[AQBase< dim >];
```

The diagram illustrates a class hierarchy. At the top is a gray rectangular box labeled 'AQBase< dim >'. Below it is a white rectangular box labeled 'LSGC< dim >'. A blue arrow points vertically from the top of the 'LSGC' box to the bottom of the 'AQBase' box, indicating that LSGC inherits from AQBase.
